

# UnitedHealthcare Insights

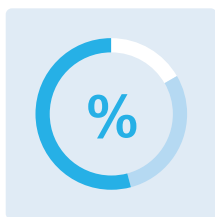

Empowering data-driven decisions

## Introducing a tool that puts transparent and actionable data in your hands.

UnitedHealthcare Insights delivers key performance metrics in a solution that is easy to navigate, understand and take action. It consolidates reporting from multiple applications into a single interactive interface—making it easier than ever to discuss clinical and operational opportunities with UnitedHealthcare.

### With Insights you'll have access to:

#### Centralized data

Explore actionable metrics in a single, easy-to-access location.

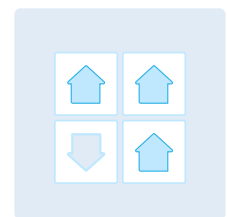

#### Instant information

Access near real-time data to monitor performance and support business decisions with UnitedHealthcare.

#### Trend analysis tools

Discover personalized metrics and interactive reporting—giving you the power of actionable data.

#### Simplified reporting

Identify your strengths and areas of opportunity with at-a-glance reporting.
